Lake Charles, Louisiana 70602-3287

Ph. # (337) 721-3600 – Fax (337) 437-4100

OIL & GAS DRILLING OR PIPELINE WORK PERMIT APPLICATION PROCESS

1. Provide topographical map(s) showing drill site and/or proposed run of pipeline work and access road/s.
2. Letter describing the project, location and name of the well and/or pipeline.
3. Will there be any drilling under a parish road? If yes, a **utility permit** must be obtained from the Engineering/Public Works Department (application can be obtained from the following web site: <http://www.cppj.net/dept/publicworks/pwpermits.asp> with a separate permit fee required).
4. Any buildings (office trailers, etc...), temporary or otherwise must be permitted as well. See separate checklist.
5. Permit fee for oil well or pipeline work is \$200.00. If electrical service is needed, \$51.00 is added – with a total of \$251.00 made payable to: Calcasieu Parish Police Jury.
6. Will the proposed drill site use hydraulic fracturing techniques? YES or NO

****NOTE: If proposed work will encroach in or around Parish drainage laterals, a permit or a letter of no objection may be required from the appropriate gravity drainage district. Contact the affected gravity drainage district/s for more information****
