(13) Received a recognized postsecondary credential or secondary school diploma (or its recognized Equivalent)				
(14) Achieving Measureable Skill Gains in Education or Training Program Leading to Credential				
(15) Effectiveness in Serving Employers				

CWC Youth Program Success Story

Tyler visited the AJC as a mandate to fulfill her obligation with the STEP program. While in the office, a referral was made to the youth department to explore WIOA Work Experience. After meeting with the Youth Case Manager and being deemed eligible to receive WIOA services, Tyler was enrolled into the element of work experience. While enrolled in Work Experience, she received Leadership Development, Supportive Services (work attire), and Labor Market Information. Tyler expressed an interest in the medical field. She was placed at Doctor's Hospital at Deer Creek as a Health Information Management (HIM) Specialist. She was able to observe surgeries and cross train in various departments of the hospital. Supportive Services (work attire) helped the participant "look the part" while taking the financial stress away because work attire was provided at no cost to her. At the end of her work experience period, she was offered and accepted a job as a HIM Specialist at Byrd Regional Hospital which is affiliated with the Doctor's Hospital. She is now wanting to also pursue a college education majoring in Biology to possibly become a surgeon. Tyler feels that she would not have been afforded the opportunity to work in this type of environment had it not been for being referred to the WIOA Youth Program. She has thanked Youth Case Manager repeatedly for all assistance provided. STEP and Youth Case Manager are extremely proud of Tyler because she is a true example of our teamwork and dedication to her success!
